Keeping your fleet operational

It's our purpose and our passion

Always ready to serve you

Aventure Aviation has a proud heritage of service, dating from our founding in 2001. We have since grown into a world-class, award-winning commercial and military aviation parts supplier and provider of component repair management services.

We find practical solutions for your excess and surplus inventories, and are experts at acquiring retired aircraft for dismantling and harvesting parts. We excel in providing customers with the highest quality parts, best value, fastest delivery, exceptional customer service, and solutions for hard to find parts and repair requirements.

Our specialty is serving aircraft from Airbus, Boeing, Bombardier, and Embraer. For our military customers, our expertise is with the Lockheed Martin C-130/L-100 and F-16, and the Airbus A330 MRTT (Multi Role Tanker Transport).

Our customers include the world's leading airlines, air forces, and maintenance, repair and overhaul (MRO) centers. They rely on our ability to supply parts that keep assets flying. To ensure a one-stop shop approach, we provide airframe and engine parts and component repair management services for the entire spectrum of ATA chapters.

We are a distributor for original equipment manufacturers (OEMs) who qualify to AS9100 standards. Our knowledgeable team and international network of sales representatives provide 7/24/365 service.

Our company continues to achieve significant growth while earning industry awards and recognition as a leading provider of aviation parts and services.

We have you covered

From the world's busiest aviation hub

State-of-the-art facility Geographic advantage

Our headquarters and warehouse is strategically located in a purpose-built facility in Peachtree City, Georgia, in close proximity to Atlanta's Hartsfield Jackson International Airport—the world's busiest. This allows us to ship parts to almost any destination up to 10pm.

Working from this global aviation hub, Aventure has the logistical ability to provide prompt and seamless shipments of aircraft parts utilizing all major airlines, freight carriers, courier services, and counter delivery services—allowing us to provide rapid outbound and inbound shipments for our customers around the world.

We are proud to offer our customers the expedited delivery of any Aircraft on Ground (AOG) requirement and shipments, around the clock, seven days a week, year-round.

The Aventure advantage

A trusted partner with trusted solutions

Keeping your fleet in the air

Aventure is a fully accredited aviation parts supplier maintaining the highest industry standards. We have met the stringent requirements of the Aviation Suppliers Association Quality System ASA-100 accreditation, satisfying the FAA Advisory Circular 00-56B, ISO 9001:2015 and AS9120B quality standards. Our obsession with high standards have qualified us as an approved supplier to leading airlines, MRO facilities, and OEM authorized service centers worldwide.

Our highly experienced team members offer AOG 7/24/365 service to our customers around the globe. They rely on our ability to provide solutions that ensure parts are delivered to the right location, at the right price, at the right time—allowing their aircraft to keep earning revenue.

Our Atlanta warehouse stocks thousands of line items, comprising an extensive selection of rotables and expendables. We support activities related to parts for initial spares provisioning, light and heavy maintenance, as well as full management of component MRO services covering the entire spectrum of the repair and overhaul cycle.

Inventory solutions

For customers seeking solutions for their surplus or excess inventory, we provide options based on current supply and demand conditions to help them decide if surplus consignment or outright sale makes the best economic sense.

With Aventure Aviation, you have a trusted partner that provides informed options and expert advice to help you with key decisions.

You expect it, we demand it

Reliable Maintenance, Repair & Overhaul

Component repair and overhaul

Aventure covers the entire spectrum of ATA chapters in managing MRO components through long-standing partnerships with reputable FAA 145 and EASA 145 approved repair stations. All shops we partner with have undergone Aventure's full inspection criteria and have established industry credentials.

Consider us an extension of your organization that is dedicated to your reputation and success, and is always in tune with your customer's needs. We ensure quality workmanship, competitive turnaround times, and full warranty for components under our management. By ensuring your component is rapidly returned to operations, it reduces your need to secure additional on-shelf inventory.

We provide a regular status of all your components—allowing you to concentrate on your fleet knowing each unit's work-in-process situation. We manage the entire logistics operation—visiting shops as necessary to oversee the work and qualify defects as reported. We assure a reliable MRO service experience.

You are in good hands with Aventure.

Parts covering all ATA chapters

- Pilot seats, premium and economy cabin seats

End-of-life aircraft new revenue opportunity

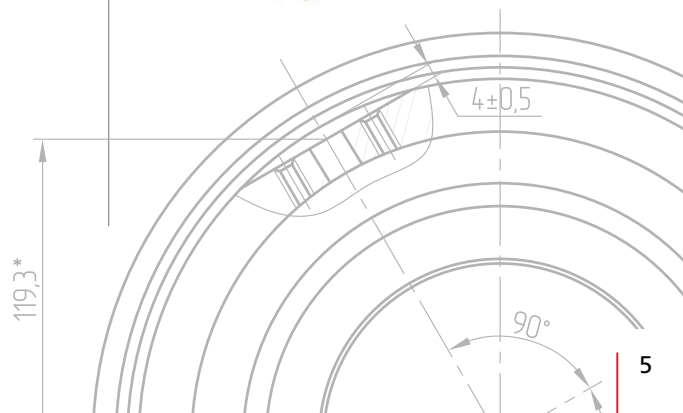

Retired or end-of-life aircraft

Aventure provides owners the option to sell or consign their end-of-life or retired aircraft asset to us. We are experienced in all aspects of aircraft teardown. This includes identifying the acquisition, planning the disassembly, selecting the parts to harvest, project oversight, recycling the hull, refurbishing and storing parts, marketing, sales, and collecting the proceeds.

With a ready network of markets and customers with a high demand for parts, our asset management team can tailor a partnership program to meet the needs of owners, hedge fund managers, private equity funds, and institutional investors—and provide the best return on your retired asset.

Aventure has a proven track record in the industry with over 1,500 customers world-wide. With our established client base and ability to sell parts globally, consider us a business partner who clearly understands the industry.

We have preferred access to all major US aviation companies who have allocated set asides and wish to spend towards minority-owned businesses.
