Serving Your World of Aviation Parts

Global Reach

Company Overview

Aventure Aviation is a world-class aftermarket aviation parts supplier that has provided customers with the highest quality products and services since its founding in 2001.

Aventure supplies parts for commercial and military aircraft, including Airbus, Boeing, Bombardier and Lockheed C-130/L-100. The company also provides airframe and engine component repair management services.

Aventure's offices in North America, Europe and the Middle East are supported by an international network of qualified sales representatives, who provide 24-hour service to customers around the globe.

Having earned the aviation industry's stringent ASA-100 accreditation endorsements, Aventure is known for its high work standards, strong professional ethics, and streamlined procedures.

The company continues to achieve significant growth while earning industry awards and recognition as a leading provider of aviation parts and services.

State-of-the-art Facility

Our main office is housed in a purpose-built 30,000-square-foot facility in Peachtree City, Georgia. Spread over six acres, the office is adjacent to Atlanta Regional Airport at Falcon Field. It is also strategically located near Hartsfield-Jackson International Airport—the world's busiest.

Working within this international aviation hub, Aventure has the logistical ability to provide prompt and seamless shipments of aircraft parts. Utilizing all major airlines, freight carriers, courier services and counter delivery services, we provide rapid outbound and inbound shipments for our customers around the world.

We are proud to offer our customers the added advantage of expedited delivery of any AOG/MICAP requirements and shipments, round the clock, seven days a week, year round.

Past Winner: Best Spare Parts Provider

Ranked one of America's fastest-growing private companies four years in a row

ASA-100 Accreditation

Maintaining the highest industry standards, Aventure is a fully accredited aviation parts supplier. We have met the stringent requirements of the Aviation Suppliers Association's Quality System Standard ASA-100, satisfying the FAA Advisory Circular 00-56A.

Narrow and Wide-Body Aircraft Parts Support

Aventure offers first-class 24/7 service to the world's airlines, aircraft owners and operators, corporate aviation, leasing firms, fixed base operators, and maintenance facilities.

Stocking thousands of line items comprising mainly rotables and aviation expendables, Aventure's commercial business section encompasses the outright sale, exchange and lease of these materials.

We offer initial spares provisioning for airlines and operators, including full maintenance, repair and overhaul management services for airframe and engine components. Aventure also supplies airframe structural components and fittings, as well as offering distributorships for various OEMs.

Additionally, Aventure has earned surplus consignment sales programs and agreements with airlines and MRO facilities worldwide. We are also a source for aircraft acquisition and sales services, inclusive of aircraft pre-purchase inspections and technical audits.

Regional and Corporate Aircraft Parts Support

In addition to supporting the spare part demands for narrow and wide-body fleets, Aventure supports customers operating regional turbo-props, and commuter twin jets.

We supply parts to airlines and operators with Bombardier Dash 8 series turbo-props and CRJ series twin jets in their fleets. We also have parts for LearJet, Gulfstream, Hawker Jet, King Air, Cessna Citation, and Beech 1900 aircraft.

World-Class Aviation Parts and Service

MRO Management Services

We cover the entire spectrum of ATA chapters, through long-standing partnerships with reputable FAA 145 and EASA 145 approved repair stations. All shops have undergone Adventure's full inspection criteria to ensure quality workmanship, competitive turnaround times, and industry standard warranty coverage.

Supporting Your Flying Mission

Military Division

Our military division supports the venerable Lockheed Martin C-130 transport, as well as the F-16 fighter jet and other key military aircraft.

Aventure offers military aircraft parts and MRO support to customers throughout the world. We provide 24/7/365 personal contact support for handling AOG/MICAP grounding issues. We maintain substantial inventory levels of critical rotables and components, along with standard used components and consumables. Our high standards have qualified us as an approved supplier to Lockheed Martin and Rolls Royce authorized service centers worldwide.

C-130 Hercules

Aventure provides consignment and inventory management using our worldwide network of C-130 operators. We also provide contract maintenance, repair, overhaul, and modification programs for C-130/L-100/382 aircraft, power plant and major components, utilizing leading strategic C-130 Hercules partnered MROs and our material resources.

F-16 Flying Falcon

Due to the high demand of air forces in key regions, we have focused our parts supply and repair services on the F-16A/C variants of this legendary fighter aircraft. Our relationships with part manufacturers and OEMs enable us to offer an unparalleled level of service.

Allison T-56 Engine

Aventure provides complete parts supply services for the Allison T-56 military turboprop engine. We have complete "ready to hang," low time T56-A-15LFE engines in stock.

International Parts Network

At Aventure, we utilize the marquee repair/overhaul stations globally, including all of the Lockheed Hologram Support Network.

Haystack and ILS-listed overhauled means on-the-shelf overhauled.
