Plans Announced for New Aventure Campus

Aventure has embarked on an ambitious expansion plan that will see the creation of a new state-of-the-art campus, projected to be completed by October 2016. To accommodate the plan, we have acquired a large tract of land adjoining our present 7-acre Atlanta operations site.

The new structures will include design concepts that highlight historic achievements in aviation. Cutting-edge technology and environmentally friendly design will be used throughout the campus.

With new component MRO shops, larger office space, and an additional warehouse to accommodate a significantly increased inventory, the new campus will allow Aventure to better serve our increasing base of customer
