## Quote of the Month

*"Ours is the commencement  
of a flying age, and I am  
happy to have popped into  
existence at a period so  
interesting."*

– Amelia Earhart

## Aventure to Exhibit at Dubai Airshow

Aventure Aviation will exhibit at stand 1420 at the Dubai Airshow, held November 8-12 at Dubai World Center in the United Arab Emirates.

Starting in 1989, the biennial show has grown to become one of the most important aerospace events in the world. The 2013 show broke records with 1,046 exhibitors from 60 countries, over 60,000 trade visitors, and an order book of \$206.1 billion – the largest in any air show history.

"The Dubai Airshow has always been a flagship event for Aventure Aviation," said Amyr Qureshi, Aventure's Senior VP. "It not only exposes us to new business opportunities, but also let's us network with our customers from all over the world."

"Aventure's Middle East and North Africa-based customers have full sales and after sales support from our Dubai office located in the Dubai Airport Free Zone," added Walid Zatarah, Aventure's Managing Director. "We look forward to welcoming visitors to our stand to learn about their needs and discuss our products and services."

## Aventure Supports Breast Cancer Awareness Month

October was National Breast Cancer Awareness Month, and Aventure held an awareness session for female staff with a speaker from Piedmont Fayette Hospital. The hospital encourages women to take preventative action with early detection methods.

Community leaders in the Greater Atlanta region, including the President of Aventure Aviation, have joined the hospital's annual "Real Men Wear Pink" campaign. They participated in community events throughout October, with ads appearing in local media.

Aventure men proudly wear pink in support of National Breast Cancer Awareness Month.

## This Month in aviation History

**November 5, 1908**

Wilbur Wright receives the Grand Gold Medal of the Aéro Club of France for advances in aviation.

**November 10, 1907**

Louis Bleriot introduces what will become the modern configuration of the airplane. His No.VII has an enclosed or covered fuselage (body), a single set of wings (monoplane), a tail unit, and a propeller in front of the engine.

**November 26, 1939**

British Overseas Airways Corporation (BOAC) is established through the amalgamation of Imperial Airways and British Airways.

## Aventure Exhibits at C-130 HOC and TCG Shows

Aventure Aviation exhibited at two Hercules C-130 conferences last month: Lockheed Martin's Hercules Operators Council (HOC) 2015 took place at the Renaissance Waverly Hotel in Atlanta, GA, while TCG International Technical Program Review took place at the Charleston Area Convention Center in Charleston, SC.

Both conferences are platforms for foreign operators and customers, suppliers, and service centers to share information regarding operational, technical, and maintenance issues.

## Aventure Exhibits at Aviation Expo / China 2015

Aventure Aviation exhibited in the Aviation Expo / China 2015, held September 16-19, at the China National Convention Center in Beijing. This was Aventure's first time at the event, which drew a record number of trade visitors from all over the world.

As Chinese air carriers increase their aircraft orders, the spare parts demand by carriers and maintenance organizations will also grow. With this in mind, Aventure exhibited its services and managed to build new relationships.

"Since 1984, the Chinese aviation industry has seen rapid growth," commented Wei Sun, Aventure's Account Executive for China.

"China has immense resources and air travel is becoming more and more significant. The population and major cities are growing and there is an increasing need for the right aviation parts supplier. Aventure plans to reach out to all airlines in China," Sun added.
